

PAC

Manifesto

I have always been fascinated by human decision making and where the sum of these decisions lead. As a healthcare professional this is a concept I have to help my patients reconcile daily. More importantly however, my role with them is focussed on the now. The present day actions and how these can impact not only their symptoms but their quality of life and that of those around them.

Whilst focussing on controllable tasks will lead to a better outcome in almost any discipline there is much more outside of our realm which can influence the trajectory. The environment will leave its impression.

The complexity of life is compelling... the sliding doors real...the butterfly effect fascinating. It is through this that I find myself here today. When entering the NFT space I had no plans to build here but day by day the environment has acted on me.

When you look back at my life (please dig deeper) you may conclude two things about me. Firstly I exist to do good in the world and secondly that I am willing to go deeper than most humans alive to achieve my goals.

I thank you for joining us on this journey. I hope you enjoy the PACManifesto.

PAC

PACPurpose

Our greater goal is to build a vehicle which improves the health and wellbeing of those who are touched by our brand. We believe that this is best achieved in collaboration with teams who share a common purpose.

We share a common purpose with PA in supporting the people of the Web 3 space in health. We will do this whilst providing utility that benefits holders of PAC and PA projects simultaneously but in turn impacting the whole Web 3 community.

PACPurpose

We are building a stand alone ecosystem but we have been inspired by PA, it's community and everything it stands for. We will do more for the PA community than any nft project has ever done for another.

Yes, our art is derivative based but we are looking to change the standard of what a derivative project is and means. We are changing the derivative game by giving back to those that came before us whilst carving our own unique path in the Web 3 space.

PACTale

You may be fooled to believe that your choices do not have consequences...Your actions insignificant... Your moves arbitrary.

Since the beginning of time, every action has made an impression... Created a shockwave...Left its mark.

In the game of life, you are firmly in the driver seat. You have the control. What you choose to do with those controls is in your hands.

The game has begun. You are already playing.

What's your next move?

PAC

Why PAC?

I'm going to ask you for one minute to forget everything you have ever thought or known about both raffle or derivative projects. PAC hovers in these categories but is neither.

PAC is a vehicle for change... a place to be better.

We are a community driven incentive which pays homage to the original PA Genesis collection, celebrates key members of the PA community whilst simultaneously adding value to PAC and PA holders.

No project has ever existed which is designed specifically in this way.

PAC

Why PAC?

This is a new era of derivative... A machine which exists to support another both in a market sense but also in the broader mission to change people's lives.

Initially you will see us expand access to the PA community through celebratory artwork and through putting PA assets in the hands of new faces. Our PACSweep and PACLotto will assist in stabilising further the PA Ecosystem whilst servicing the PAC Ecosystem.

We are building an independent vehicle in our own right whilst servicing another with synergy.

We are the future. Join us on this journey.

Founder & community lead

Community driven healthcare entrepreneur & creative marketer passionate about building Web 3 into a healthier and safer space.

Joshua S. Lee

Web3 Engineer

ex-Facebook Software Engineer, been part of building Lobby3 and MeebitsDAO

PACArt

PAC is a psychedelically inspired 2D artwork in celebration of the PA Genesis Collection.

Whilst there are a plethora of unique traits in our collection, many have been inspired by some of the rarer PA genesis traits but with using brighter and more vibrant colours to add a new spin and highlight the true beauty of the original art direction.

Remember, **PAC is NOT an exact replica of PA**, traits are named & mixed differently in addition to many new original psychedelics traits.

In total, PAC has **+100 Masks** and **+80 Heads**.

PAC

PACMint

The PAC NFT arrives on the Ethereum blockchain.
It's impression shall last for eternity.

PAC

PACMap 1.0

PACPlay

The game has begun. What will happen next? Your actions have consequences.

PACSweep

The PA floor is juicy. The 'Buy Now' button is ready. Time to acquire PA assets for the PACFam. This blast will be felt near and far. Be sure to take cover.

PACLotto

Every week a PAC holder will be welcomed into the PA ecosystem. Your PAC serves as at least 1 entry into the PACLotto weekly. This information is valuable.

PACSwap

PAC holders who already own a PA Genesis are able to swap their existing genesis for one in the PACVault. Just cover gas.

PACMap 1.0

PACYou

PAC holders who don't own a PA Genesis, if available are granted permission to use a PACVault PA Genesis as their PFP for a given period of time.

PACDeck

Some things are better left a mystery.

PACMeet

The NFT space is evolving. Our IRL offering is unique. When the time comes, all we ask is that you be ready.

PACCare

Free mints have been offered will be awarded to members of the PA community who have had their PA assets stolen. Community is our priority. A fund will be set up to support community members in need.

PACMap 2.0

Upon sellout and completion of PACMap 1.0, things really start to get interesting.

PACHealth

Sustainability

Allocation of mint funds are as follows

40% to PACVault :

Used for PACSweep & PACLotto

40% to PACDev:

This wallet will be used to fund ongoing developments in the project, cover costs, pay PACteam salaries, deliver PACMap and continue to innovate/provide value to the PACFam.

20% to PACTeam:

Compensation to core/extended team and repayment of start up expenses.

Sustainability

Allocation of Royalties are as follows

There is a 5% royalty on secondary sales.

40% to PACVault

40% to PACTeam

20% to PACDev

PACFunds Management

Allocated funds to PACVault & PACDev will be carefully managed to optimise health of the available capital and its use. This is achieved through but not limited to the following mechanisms:

Staking and trading of held assets to generate ETH and \$PSY. Using \$PSY to purchase further assets for PACLotto.

Conversion of ETH to Fiat (as advised by professional trader).

Future PACFunds

PACMap 1.0 and specifically 2.0 have been designed to provide further revenue to the PAC Ecosystem.

PACMap Opportunities.

These opportunities currently exist outside of what is officially planned for PACMap 1.0 and 2.0.

PAC has been specifically designed to benefits members of both the PAC and PA ecosystems. In light of the most recent PA update, the following areas are currently in discussion and official proceedings underway.

PAC inclusion in DE.

Further building \$PSY into the PACecosystem.
PACVault acquiring Demp for PACfam benefits.

Discussion

PAC has been designed as support arm to the PA ecosystem. We are building something special here and this is reflected in the great community that is building around the project.

The team are currently working on building an official relationship with the PA team. This is our goal and we will work with purpose to achieve this.

The PAC artwork is inspired by the PA Genesis collection. This is in homage of the original project and in tribute of the key community members who helped build it.

We don't envision any issues arising from this, however a secondary collection has been designed and other contingencies put in place. PACFam will be protected and we will deliver the PACMap as promised.
